

KISHAN K. DAKI

PROFILE

Experienced PHP developer with five years of proven expertise in designing, implementing, and maintaining dynamic web applications. Proficient in full-stack development, I excel in PHP, MySQL, and web technologies to create efficient, secure, and scalable solutions. Adept at collaborating with cross-functional teams to deliver high-quality software products, I bring a deep understanding of best practices, performance optimization, and the latest industry trends. My problemsolving skills, coupled with a passion for clean and maintainable code, make me a valuable asset in crafting robust web solutions.
