EXPERIENCE

Yash Technologies

Associated Software Developer

📅 July 2022 – August 2024 📍 Indore, India

- Directed the development of secure backends with .NET Web API and responsive frontends using ReactJS for projects serving 1,000+ users.
- Optimized a sophisticated email provisioning system for a US client, managing 10,000+ employee email accounts with robust .NET Web API and ReactJS integration.
- Developed a full-stack e-commerce platform for internal use, supporting the sale of 500+ e-medicine products and implementing features like product browsing and cart management.
- Teamed with a group of 8 to ensure project delivery within 10% of planned deadlines and improved system performance, reducing load times by 30% and boosting user engagement by 20%.

iTalent India Management Consultants Pvt. Ltd

Frontend intern

📅 January 2022 - May 2022 📍 Online

- Revamped BizGrow, a key product for 500+ modern businesses, by implementing features that streamline employee management.
- Constructed and integrated change tracking and expense management systems, which improved process efficiency by 20% and reduced manual administrative tasks by 30%.
- Upgraded detailed FAQs and user profiles using NextJS, contributing to a 25% increase in user satisfaction and 15% reduction in support tickets.
- Partnered with a team of 6 developers to ensure the delivery of a user-friendly and efficient solution, leveraging cutting-edge front-end technologies.

EDUCATION

B.Tech. (CSE) - 8.17 CGPA

Shri Vaishnav Institute of Technology

📅 July 2018 – April 2022

Higher Secondary - 70%

Prof. Santosh Mittal School

📅 May 2018

SKILLS

- **Programming:** C, C++, C #, JavaScript, Typescript
- **Database:** MySQL, SQL Server
- **Web Development:** HTML, CSS, Bootstrap, ReactJS, Redux, NextJS
- **Frameworks/Library** .Net Core, Asp.Net, Entity Framework

PROJECTS

Email Provisioning System

- Developed an email-based system for an American client using React.js for the frontend and .NET 6 Web API for the backend.
- Implemented robust email authentication and authorization mechanisms as both a Front-end and Back-end Developer.
- Streamlined access control and enhanced security for the client's internal operations.
- Designed and developed the system to meet the specific requirements and needs of the American client.

Food Ordering App

- Planned a full-featured clone of the Swiggy food ordering app, successfully replicating 90% of the core functionalities and user experience using ReactJS and integrating live Swiggy APIs.
- Engineered a powerful and responsive user interface with ReactJS, achieving a 40% reduction in page load times and a 25% boost in user engagement through real-time updates and seamless navigation.
- Implemented Redux for efficient state management, ensuring smooth data handling across the application and reducing state-related errors by 50%.

Guessing Game

- Prepared an engaging web-based guessing game using ReactJS and TypeScript, attracting 5,000+ unique visitors within the first month.
- Implemented capable gameplay with a new movie challenge on each visit and 100+ past movies, resulting in 50% higher user engagement and 30% longer sessions.
- Designed core pages (About Us, Contact, Main Game) to enhance site structure and functionality, achieving 25% faster load times and 20% lower bounce rates.

CERTIFICATE

- AZ-900

PERSONAL SKILLS

- Demonstrates leadership qualities.
- Perform well in demanding environments
- Comfortable working independently.
